

THE HERALD.

JNO. P. BARRETT, Editor.
CICERO T. SUTTON, Associate Editor.
WEDNESDAY, SEPT. 14, 1881.

SIX men were hung at Little Rock, Ark., last Friday.

THE Logan Circuit Court, at its recent sitting, returned 153 indictments, mostly for minor offenses.

THE Monarch Rifles, of Owensboro, decided by a vote, last week, to go to the celebration at Yorktown in October.

HON. W. H. SWENNEY, of Owensboro, is mentioned as a candidate in the next Legislature for United States Senator.

DR. SAMUEL HAYNES, for fifty years a well-known physician of Daviess county, died at Masonville some days since.

THE McLean Progress has been enlarged and otherwise improved. The general appearance is now good, save that, to us, the paper has a sort of left-hand look. It deserves a liberal support.

THE Muhlenberg Circuit Court is in session. According to the *Echo* it will be a dull court, as there is but one interesting case on the docket. Concealed deadly weapons seem to be the average Muhlenberg's besetting sin.

CAPE NAT. J. HARRIS, of Muhlenberg, is a candidate for clerk of the Senate. Mark us as being for Capt. Harris by a large majority. He should have the office by all means, and the vote of every member from Western Kentucky.

THE Frankfort *Yowan* hauls the Bowling Green Gazette over the coals for bad spelling, and is itself guilty of an error in spelling the word *interfere* in the same paragraph. Don't interfere until you learn how it should be done all round.

AN exchange asks: "Does love pay?" Certainly it pays if your girl has a few thousands and reciprocates the passion. In fact, if many fellows get twenty cents in return for their love sixteen and two-thirds cents might be reckoned as clear profit.

THE *Messenger & Examiner* kicks against the census report, which gives Owensboro 9,000 population, and claims that there are at least 12,000 people. The Saturday *Post* goes further, and states that there are 20,000 *soles*, one on each foot in the city, except, we suppose, the brats who go barfooted.

Two Breckenridge county brothers lost their lives in well, which they were digging last week. They were climbing down a pole, which was about forty feet long, when the one above fell on the other, precipitating both to the bottom of the well. The neck of one was broken, and the other's head was horribly crushed.

THE Hartford Herald has kissing on the brain as badly as it had the measles. —Bowling Green Gazette. We deny the allegation as herein above set forth. We have investigated the matter, and the only man in the office who seems to know anything about it says that they always settle on his lips instead of on the brain. It is not that kind of a sick.

MR. ALMON CLARKE, one of the oldest citizens in Daviess county, died Tuesday night at his home in the Macedonia neighborhood. He was 86 years old, and fought with Jackson at New Orleans, being one of the few wounded. He was very fond of talking over his war record, and always said a "brilliant" was the prettiest mark he ever aimed at. —Owensboro Post.

THREE thousand persons claimed the "B" prize for the discovery of comet "W. 1881" better known to Hartford people as Klein's comet No. 2. Among so many of course it was impossible to make an award, and consequently, the patent-medicine man keeps his money. The general impression is that he was not very anxious to make an award at all.

THE manner in which Barnes tries to discount the Apostles in the healing business is to stick his finger in a little sweet oil and apply it to the forehead of the patient with the words, "May the blessed Lord cure thee, my brother." Some of them get well and some don't, just as they would if Barnes never had, just a drop of sweet oil in his life.

A LOCOMOTIVE and two passenger coaches fell through a bridge on the Short Line Railroad between Louisville and Shelbyville last Thursday night. Seven persons were killed and many more wounded, in fact scarcely a passenger escaped uninjured, and there were over one hundred on the train. Accidents are very frequent on the Short Line, and the managers use every endeavor to keep the facts from the public. Two *Courier-Journal* reporters were refused passage on a train to the scene of the accident.

BRICK POMEROY is trying to sneak back into the Democratic party by asking it to do as he likes. We don't need him, and if we did we could never be brought to think that his services were worth enough to justify any advances on the part of the Democratic party. Hear him: "The *Great West* would be glad to see Gov. Hendricks, of Indiana, nominated for the Presidency by the Democrats on an anti-bond, soft-money platform. He would be elected President, and thus get even with the National Bank outfit that set an honest, generous statesman aside for the dishonest, illiberal National Bank dis-sucker, English. If the Democrats will set their face against United States bonds and nominate Thomas A. Hendricks, he can have our vote and that of 2,000,000 of Greenback men as well."

A NINETY-FOUR years old citizen of Louisville died last Friday from the effects of an attempt to drown himself.

LICENSEES were issued to eleven couples in Christian county during the month of August, and eight of the brides bore the name of Mary.

THE fairs now being held over the State are said to be very successful—unusually so when the recent drought is taken into consideration.

THE Owensboro coopers are on a strike for higher wages. The managers do not seem to be willing to accede to their demands and many of them are leaving for other cities.

ALLEN BELL, of Logan county, has been sued for \$25,000 damages by a negro who was most horribly beaten by Bell for cursing him. The negro was tied and almost cut to pieces with a horse-whip.

THE oyster is not the only thing that suffers during the months with an R. The raccoon begins to tremble as he glances at his coat and finds that his fur is growing and will soon be ripe for the hunter.

THE Apache Indians are still raising Cain, or rather raising hair, in Arizona. Reports of massacres continue to come in, and the citizens are arming themselves for a general war of extermination on the savages.

THE initial number of the *Saturday Post*, published by Messrs. A. T. Craycroft and Geo. V. Triplett, Owensboro, is on our table. It is neat, newsy and readable, and it doubtless will work its way to prosperity in a short time. We bid it a hearty welcome.

THE Bowling Green Gazette came to us last week so very much improved in appearance that we did not recognize it. It has discarded its patent outside and is now one of the best-looking, as it has long been one of the best papers in the State. Warren county owes it a liberal support.

ONE week the *Commercial* pitches right and left into deadly weapons carried by men, and the next it advocates the use and carrying of them by women. Already does the married man have trouble enough with all the weapons known to his wife, and if she becomes an expert in the use of the pistol he may well tremble.

ACCORDING to present indications New Orleans will be many miles from the Mississippi river before many years elapse. It is stated that not a drop of the water of Red river flows into the Mississippi, but that it now flows into the Atchafalaya, and that much of the water from the Mississippi flows into the same stream, and the quantity is constantly increasing and the stream rapidly being enlarged.

WE are not much of a prophet, but from an inward consciousness that it will be so we predict a mild winter—the mildest, in fact, on record. Great quantities of rain will fall and the thermometer will never get below zero during the season. This is only a prediction, but it is the firm faith of the writer, and if it comes true we do not expect even to say "I told you so," for we don't claim any knowledge or means of knowing anything about the matter.

ACCORDING to a correspondent of the *Muhlenberg Echo*, South Carrollton has two calves which were weaned at six months old, but "were not to be cheated out of their usual lactated beverage in any such manner, consequently they began to swap work in turn. One would play cow and the other calf 'till finally each was 'brought to its milk,' and didn't ask anybody to be their mama either. That's what I call independence."

THE New York and Boston bankers are making efforts to discredit the silver certificates, but their designs are not working satisfactorily. The dispatches from New York state that more certificates are coming into circulation every day, and the amount of silver in the Treasury unrepresented by certificates is considerably less than a year ago. The fear of a silver glut has passed away and so will the foolish effort of the eastern bankers to take from the people the best and safest part of their currency.

A COMBINATION of those telegraph companies which have not been absorbed by the Western Union has been effected and it is predicted that it will be a great blow to that company, which, by the way, is one of the most stupendous monopolies that has an existence in this country. The parties to the combination are the Canada Mutual; Eastern, of Maine; the Baltimore & Ohio system; the Mutual Union; and the Rapid Telegraph Company. The mutual increase of stock will be \$5,000,000, of which the first call will be \$1,000,000.

Our county has been free for some time from the actual crime of murder, but last Friday again witnessed one of those horrible deeds that have stained the pages of Kentucky's history with blood thick and black. On that day, with no provocation that we can hear of, Jack Johnston, a cropper on the farm of Mr. Luke H. Ferguson, near Whippoorwill Station, shot Geo. Richards, a farm hand. The shooting took place in the barn where Richards was at work. Johnston, feeling himself aggrieved at some trivial matter, stepped into the barn where the shooting occurred and fired a ball in the groins of his victim, from the effects of which he died Saturday night. Several men were in the barn, but Johnston's pistol prevented them from capturing him, and he made good his escape. As yet no arrest of him has been effected. —*Russellville Messenger*.

SEVEN prisoners escaped from the jail at Henderson last week.

A FAITH-CURE exists at Erie, Pa., which bids fair to rival Pink Cottage. It is conducted by the Methodists of that city.

A BICYCLIST is out on a ride from New York to New Orleans. He passed Louisville a few days since and is now in Bowling Green.

A CROP of tobacco taken from the farm of Senator John S. Williams sold last week in Cincinnati for \$21.49. It would seem that Cerro Gordo is a farmer as well as a statesman.

THE Chicago and New York railway lines have inaugurated what is said to be the "dearest cut on record" in passenger rates. Through tickets are now sold at \$5.00 between the two places.

FOREST fires are raging in Michigan to an extent truly fearful. It is reported that whole counties have been consumed and that nothing escapes. The damage is incalculable and many lives have been lost.

A FUSION has been effected between the Republicans and Greenbackers of Mississippi, and as a consequence many prominent men of both parties have declared for the Democratic nominees. Fusion doesn't always fuse.

THE exposition at Louisville opened on the 6th inst., "under most favorable auspices," the attendance being large and the receipts satisfactory. The exposition of 1881 promises not to be behind its predecessors in point of interest or patronage.

TWO Owensboro "bellies" recently donned men's clothing, mounted a donkey, and, in the classical language of the Local Editor of the *Messenger & Examiner*, "took to the town." The local threatens to "give them away" should they do so more.

W. E. HUBBARD, of Daviess county, was killed by a falling derrick at a coal mine near Owensboro, last week. He was endeavoring to raise a cow which had fallen into the air-shaft of a coal mine, when the derrick fell on him crushing his brains out.

AFTER all, the Stalwarts are about to triumph in New York. A State convention has been called to meet October 5th, and it has been decided that it should meet in New York city, which is regarded as the first step toward a Conkling victory, as that city is his greatest stronghold.

DOCTORS BARNES, Reyburn and Woodward were discharged from the gang of quacks who issue lying bulletins from the bedside of the President last Wednesday. He said that he "couldn't see any use in so many doctors." If he had discharged the whole pack in the beginning it might have been vastly better for him.

SOME Ohio man has discovered that crows fly zig-zag instead of in a straight line, as has been supposed. —*E. E.* If there is anything to be discovered just get on Ohio men to work on it, *Stangs*.

THIS will do if it is an abstract question that you put him on, but when it comes to an incontrovertible matter of right and honesty he is not there, not always. Ohio goes Republican.

IT is thought that the branch penitentiary will be located at Edylville, Lyon county. Timber and stone can be had in any quantities and at low rates as can be had anywhere. Land suitable for a site can be purchased at \$20 per acre, and we suppose that, everything considered, Edylville will be the place selected. Ohio county doesn't want it.

A TRAIN robbery occurred near Independence, Mo., last Thursday night. The robbers piled stones on the track and signalled the train to stop when it went through and took everything of value that could be found. The express messenger was forced to open the safe and surrender the contents. The amount secured is not known, but is estimated at from \$5,000 to \$20,000.

IT appears that the report that Mr. Wallace Gruelle had retired from the editorial management of the Breckenridge *News* was a little premature. An offer was made him by the managers of *News* which he conditionally accepted, but Mr. Gruelle, proprietor of the paper, properly appreciating the editorial services of Mr. Gruelle, out-bid the picture paper and he was saved to Breckenridge county and the *News*.

GUTHRIE was shot at by a guard at the jail in Washington Sunday evening. The shot was fired through the window, barely missing his head, and lodging in a wall behind him. The man, who was an army sergeant named Mason, was immediately arrested and placed under guard in the arsenal. There is a question as to whether he will be tried by civil or military law. His offense by the civil law is assaulting with intent to kill, the same as Guthrie's, but it is not likely that he will meet with the same punishment. Much sympathy is manifested for him in Washington, although the act is to be condemned.

ON Tuesday last week President Garfield was removed from the White House to Long Branch, New Jersey, by rail. The journey was made, according to the calculation of the managers, in a little over seven hours. Everything went well and the symptoms were not unfavorably changed save from the actual fatigue of the journey. He continued to get along well until Sunday last, when "another crisis" appeared, causing considerable alarm, even to the ever-hopeful Bliss, who admitted for once that the President was worse. Blood-poisoning has again made its appearance, and there is considerable inflammation of the lungs. At the latest reports Sunday night hope was very dim, but still flickering, but likely to be extinguished by the slightest breeze of adversity in his condition. See the latest news in another place.

LATEST advices report the President as being somewhat improved in comparison with his condition Sunday and Monday. The most alarming features of the lung trouble are dissipated. At 6:30 p. m. Monday his pulse was 100, temperature, 98.6.

Bound to Swing.

The negro who attempted to outrage the widow Hodge has not yet been caught, but one is under strong suspicion, and with the first clue of his guilt he will be jerked into glory from the most convenient limb by the indignant neighbors. In this connection, we may add, the lady is in destitute circumstances and needs aid. —*Echo*.

Pistols.

One way to lessen the reckless use of firearms would be to compel every person who carries a pistol in a city, town or village, to pay a license of about \$25 per year, and be under good bonds of at least \$1,000 per year not to use firearms except in clear cases of self-defense. Dealers in revolvers and pistols generally should not be permitted to sell to persons not of lawful age, and then to sell only to persons who give bond to the county in the sum of \$1,000, collectable to apply on damages caused by unjustifiable use of said weapon. As there is no law to prevent, any youth or drunken leader can arm himself and be the means of killing indiscriminately to gratify his inflamed passion. —*Great West*.

The Newspaper and Politics.

The following from the *Russellville Herald-Enterprise* strikes us as being so sensible and so sensible to those who object to politics in a newspaper that we reproduce it:

"Occasionally some milk-and-water editor, bidding for popular support, talks about dropping the discussion of politics and devoting himself 'to our local interests.' But he never does either. 'Dropping the discussion of politics' is what ails the country. It is what De Toqueville, in his 'Democracy in America,' says threatens the stability of a republic: That the people, wedded to industrial pursuits, leave the politics to a few, and the few shape affairs to suit themselves. It is not true that too much is said about politics. The trouble is that too little is said in the proper way. One of the chief duties of a newspaper is to keep the people informed on the politics of the times, and attention to local interest is a matter of course."

A Soulless Corporation.

A few weeks ago the *Courier-Journal* was kicking because of high rates on coal from the P. & E. road to Louisville, and explained that it was all the fault of the P. & E., as the L. & N. had nothing to do with the making of rates. We now have a case for the L. & N.'s exemption to consider. Last week Grundy Bros., of the Greenville liverymen, ordered a carload of corn, 500 bushels, from Louisville, and the freight alone amounted to *seventy-nine dollars and fifteen cents*. When remonstrance was made to the shipper, Verloeff & Strater, they replied: "We have shipped several cars of corn this season, but the L. & N. would allow us no reduction, saying that the corn was needed and would be shipped, and they had as well have full rates." Is not this outrageous? Merely because of a drought upon a people who are bound by law to have bread and feed for their stock, knowing the advantage they thus have, they defiantly claim the privilege of "sticking it to" consumers. We hope the railroad commission will "stick it to the L. & N. in their report to the Legislature." —*Echo*.

Hartford College.

We had the pleasure of attending the opening exercises of Hartford College last Monday and Tuesday, which were of most auspicious and flattering character. During the last year the College matriculated 256 pupils, and the year's work was a grand success. This, its second year, opens with 290 pupils which is exceedingly complimentary and speaks in advance the success of this young, yet great institution of learning. Each department is controlled by a thorough and energetic teacher, and all pains are taken for the advancement of the pupils. Miss Lillias Reid, a highly cultured young lady of New Jersey, is principal of the department of music. She has devoted much time and study to her musical training in the best schools of that State. Hartford may well be proud of her College. Good board can be obtained in the town for \$2.50 per week. Taking into consideration the superior training and educational facilities, together with cheap board, this school is well worth the consideration of young gentlemen and thoroughly developed, preparing them for life's great duties. Send a postal card to Prof. Alexander, Hartford, Ky., for catalogue. —*Litchfield Sentinel*.

DEATH IN THE FLAMES.

Whole Counties in Michigan Licked up by Tongues of Fire.

Loss of Life That is Truly Fearful.

CHICAGO, Sept. 8.—A special to the *Times* from Sand Beach, Michigan, dated Sept. 7, 11:15 a. m., says: "The fire of last night was worse and did more damage than that of 1871. The towns of Bad Ax, Verona, Port Hope and Huron City are all burned. Eight dead bodies were brought into Port Hope before 5 o'clock this morning. At least one hundred lives have been lost in this county. R. J. Meade and his whole family, living four miles west of Sand Beach, were burned. A child of James Meade was found dead this morning. James Meade and wife have not been found. One family was found in a well, safe, but all their goods, horses and barns were burned. The people of Verona hurried themselves in their gardens. The hose company of this town

were up all last night, and are now wetting the streets, houses, barns, etc. The only danger here is from sparks and cinders."

"Reports from what is known as the Erskine State, about eight miles west of here and running south through the township of Paris, are heartrending. Dead bodies are lying along the road and in the door-ways."

ENTIRE TOWN OF VERONA BURNED. "7 p. m.—Up to the present time twelve bodies have been found and brought into town. It is reported from Port Hope that twelve persons are known to have been burned near there. More are missing, who it is feared have been burned. The entire town of Verona is burned, with the exception of a hotel and a church. The inhabitants have saved nothing. There is not a pound of flour in the village. A letter from the County Treasurer of Bad Ax, dated yesterday, says fifty families are without a roof to cover them. The county buildings and records are safe. They have appealed to the Mayors of Port Huron and Detroit for aid, as no provisions or clothing were saved. No one can imagine the havoc that was made by yesterday's and last night's fire. One little child was found clasped in an elder sister's arms, and two others were burned to a crisp. One entire family, consisting of five persons, was burned within twenty rods of home.

"Five hundred families are reported at Minden as having been burned out. A woman and seven head of cattle were burned at Smith's mill, half a mile from Tyre. Wherever a house is left people flock to it like sheep to a fold, in some places as many as six families being a log shanty. They must have relief from below or great suffering will be the result. I saw many families today who hadn't had one meal since Monday, and who do not know when they will get one. Their teams are all gone, their cows and other stock burned—desolation stares them in the face. They talk about their misfortunes, and many of them say that, had it as it is, it might be a great deal worse. They are glad to get away with their lives.

A HEAVY RAIN.

EAST SAGINAW, MICH., Sept. 8.—There was a heavy rain last night at Bay City and north of that point, and it is reported to have extended along the Huron shore in the vicinity of Sand Beach, checking the fires in this section. But few reports of damage are received, and those are confined chiefly to Buena Vista, Yarmouth and Blumfield townships. No more buildings are reported burned today, but several families in the northeastern portion of Buena Vista are environed and cut off from communication. The people are hauling five or six hundred barrels of water daily in the country from this city, and a water famine exists in all the eastern portions of the county. The fires are subsiding in Tuscola county, where immense damage has been done. In all, one hundred and fifty families are burned out and \$100,000 worth of property destroyed. Twenty bodies are said to have been brought into Cass City, that county, today. The people are calling for aid. A meeting is to be held in this city to raise funds for the sufferers.

The following appeal has been issued by a committee of citizens at Port Huron, headed by Senator Conger, Mayor E. C. Carleton and others:

To the People of the United States: A most appalling disaster has fallen upon a large portion of the counties of Huron and Sanilac, with some adjacent territory—a section of country recently covered with forests and now occupied by nearly 50,000 people, largely recent settlers, and either poor or in very moderate circumstances. In the whole of this section there has been but little rain during the past two months, and everything was parched and dry, when on Monday, September 5, a hurricane swept over it, carrying with it a sheet of flame that hardly anything could withstand. We have reports already of over 200 persons burned to death, many of them by the roadside or in fields, while seeking places of safety, and it is probable that twice this number have perished. We also have reports from twenty or more townships, in which scarcely a house, barn or supplies of any kind are left, and thousands of people are destitute and helpless. All of these people require immediate assistance, and most of them must depend on charity for months to come. We are doing all in our power to succor them, but the necessities of the case are so great that contributions from the charitable throughout the country will be required to keep them through the winter. We therefore appeal to you to send money, clothing, bedding, provisions, or any other supply that will help to maintain the suffering and enable them to provide shelter for themselves and begin work again on their farms. Contributions may be sent to Mayor E. C. Carleton, Chairman of the Relief Committee appointed by the city of Port Huron, who has sent agents through the burned districts to ascertain the wants of the sufferers and distribute supplies."

Hayden Berryman, an attaché of the office, is quite sick at the residence of his father on Washington street. Hayden is an exemplary young man and is quite a favorite among his associates. We hope he may soon recover.

Mr. T. M. Hill, representing the wholesale furnishing house of Martin, Thimman & Co., Cincinnati, was in town several days this and last week. Mr. Hill was formerly from Dixon, and is a cousin of Capt. S. E. Hill, of this place.

Miss Florence Iglehart, of Gilbertsville, Marshall county, and Miss Mary Carson, of No Creek, called to see us last Monday. Miss Iglehart is visiting relatives in the vicinity of No Creek, where her parents formerly lived.

Mr. John A. Cone, representing W. Williams & Co., wholesale dealers in notions, goods, furnishings and druggists' sundries, Louisville, Ky., was in town last week. Mr. Cone is one of the most energetic as well as one of the most reliable salesmen on the road, as is evidenced by the fact that he won the large special prize offered by his house during the last year. He travels over a large territory in this section of the State, and from our knowledge of his house and his manner of conducting business, we can cheerfully commend him to merchants everywhere. Save your orders for him.

—Peter Haffey, of Fordville, was arrested last week on a charge of carrying concealed weapons, and taken before Esquire James Miller for trial. A fine of \$30 and imprisonment in the county jail for fifteen days was assessed against him, but doubts arising in the magistrate's mind as to his right to try the case, the decision was annulled, but was reinstated at the instance of County Attorney Sanderfur, and a capias issued for Haffey. He had gone into Daviess county and was arrested by Marshal Jo. Stockton, who, with Mr. John Chambliss, brought Peter to town and placed him in charge of Uncle Ras, to stay during the fifteen days given him by Justice Miller.

—Thos. P. Brown, while hauling a wagon loaded with coal, drawn by two horses and a mule last week, met with quite an accident both to himself and wagon. While driving through the street his mule, which was hitched to the end of the tongue, became unruly and turned back in the opposite direction to that which he was going, which broke the tongue and smashed one of the horse wheels. This scared the two wheel horses, when all three of them began to run. Mr. Brown jumped off and, catching the saddle animal by the bit, swung on to them and finally succeeded in checking them. Mr. Brown was seriously wounded in the side and the wagon badly damaged.

—There are many men who now own good, comfortable houses, which, were they to be destroyed by fire, could not be replaced on account of scarcity of means at the disposal of the victims of the flames. As a consequence, suffering and privation would necessarily ensue, and which can only be prevented in case of fire by adopting the plan of taking out a policy in a good insurance company. Barrett & Bro., are agents for several of the best companies in the world, and take pleasure in making contracts to pay for the ashes of your home should it burn while covered with a policy issued by them. You owe it to yourself, your family, and, if you have them, your creditors, to insure against fire. A house not worth insuring is not worth living in.

—Joseph Keown, son of Madison Keown, living near Stewartsville, was arrested last by Thursday Deputy Sheriff Rogers and Van B. Rains, on a writ of lunacy. The prisoner drew a club on the officers, but was arrested without any damage to either prisoner or officers. They started to Hartford, coming on freight train, and about 11 miles below Rosine the prisoner leaped from the train, while it was running at the rate of 25 or 30 miles per hour. The Deputy Sheriff and Mr. Rains determined not to be outdone, leaped off the train after him. At this, the train stopped, when the parties again boarded and came on without further trouble. His trial was postponed until yesterday morning and the prisoner was sent to jail for safe keeping. We have heard of compositors following copy out of a window, but never heard of officers following a prisoner out of a car-window at the risk of their lives before.

—Extract from a letter written to T. J. Griffith, editor of the *U. S. Drych*, a weekly Welsh paper of Utica, N. Y.: "As an encouragement to you, since the advertisement of Kendall's Spavin Cure first appeared in your paper many injured miners have been using it, and in all cases in and around here it has achieved wonders. It is a perfect success among injured miners."

Yours truly, RICHARD OWEN,
Ocean Mines, Pa., April 20, 1880.

School for Capota.

FRANKFORT, Ky., Sept. 6, 1881.
J. Edwin Rame, C. S. C.

Owing to the sickness and absence of the Auditor we have been delayed in returning the per capita for the School year 1881-82. We look for his return this week, when the desired information will be sent to all the Commissioners. The delay is unavoidable. We trust to inform you in a few days.

Very respectfully,
JOS. DESHA PICKETT,
Supt. Pub. Instruction.

Rescued from Death.

The following statement of William J. Coughlin, of Somerville, Mass., is so remarkable that we beg to ask for it the attention of our readers. He says: "In the fall of 1876 I was taken with a violent bleeding of the lungs followed by a severe cough. I soon began to lose my appetite and flesh. I was so weak at one time that I could not leave my bed. In the summer of 1877 I was admitted to the City Hospital. While there the doctors said I had a hole in my left lung as big as a half dollar. I expended over a hundred dollars in doctors and medicines. I was so far gone at one time a report went around that I was dead. I gave up hope, but a friend told me of Dr. Wm. Hall's Balsam for the Lungs. I laughed at my friends, thinking that my case was incurable, but I got a bottle to satisfy them, when, to my surprise and gratification, I commenced to feel better. My hope, once dead, began to revive, and to-day I feel in better spirits than I have the past three years."

I write this hoping you will publish it, so that every one afflicted with diseased lungs will be induced to take Dr. Wm. Hall's Balsam for the Lungs and be convinced that consumption can be cured. I have taken two bottles, and can positively say that it has done more good than all the other medicines I have taken since my sickness. My cough has almost entirely disappeared, and I shall soon be able to go to work."

Col. Hazeland.

This gentleman, who is well-known as the friend of all boys and of waiters, newsboys and boot-blacks in particular—delivered an open-air lecture in the street in front of the court-house to the boys and girls of town Monday evening last. Although it was designated as a lecture for children, many of a larger growth attended and were greatly benefited. The Colonel is a speaker of rare power and possesses the uncommon faculty of holding the children spell-bound under his eloquence. Round about of applause from the little folks greeted many parts of his speech, and all went away expressing a hope that the Colonel could be induced to again come among us, which, by the way, he has promised to do at an early date. He is also the agent for the Kentucky Infirmary for Women and Children, one of the noblest charities in the State.
